IMPROVING FINANCIAL LITERACY AMONG YOUNG ADULTS

INTRODUCTION 1

The Problem

Many young adults struggle with budgeting money, saving regularly, managing debt, understanding financial concepts.

Why It Matters

Poor financial literacy can lead to financial stress, excessive debt, impulsive spending, lack of emergency savings.

Main Causes:

- Lack of financial education
- Influence of social media spending culture
- Easy access to digital credit and online shopping

2 LITERATURE REVIEW

Current Solutions:

- School-Based Financial Education – teaches budgeting, saving, and investing
  - Strength: Early financial awareness
  - Weakness: Often too theoretical
- Online Financial Platforms – includes budgeting apps, blogs, and online courses.
  - Strength: Accessible and interactive
  - Weakness: Information can be confusing
- Government & Bank Programs – Financial seminars and awareness campaigns.
  - Strength: Professional guidance
  - Weakness: Limited youth participation

METHODOLOGY 3

Step-by-Step Research Plan

1. Create survey questionnaires
2. Gather responses from young adults (ages 18–30)
3. Analyze budgeting, saving, and spending habits
4. Organize results using charts and percentages
5. Identify major financial literacy problems

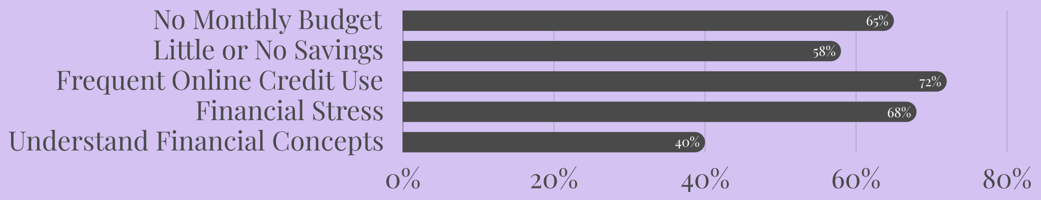
Participants

100 young adults:

- College students
- Young professionals

4 IMPLEMENTATION & RESULTS

Key Findings



Proposed Solution

Implement a Financial Literacy Awareness Program featuring:

- Interactive workshops
- Budgeting challenges
- Social media campaigns
- Mobile budgeting tutorials
- Financial education in schools

CONCLUSION 5

Participants

Improving financial literacy can help young adults:

- Make smarter financial decisions
- Reduce debt and financial stress
- Build savings and emergency funds
- Achieve long-term financial stability

“Financial literacy is not just a skill — it is a foundation for a secure future.”
